Work bags & organisers

10 references

Shoulder bags, totes, briefcases and small-item organisation.

18

Coordinated bags & accessories

15 references

Coordinated carry styles, crossbody bags, waist bags and pouches.

21

How to specify your order

Quote the CSL model code and tell us your quantity, destination, target size, fabric, colour and branding requirements. We will confirm the selected construction, sample, packing and commercial terms before production.

Specification status: the supplied catalogue does not state dimensions, fabric composition, capacity, weight, packing quantities, MOQ or lead time for these models. These remain to be confirmed; they have not been invented.

Visual references: product photographs are retained at their available source quality and fitted without distortion. CSL labels are OEM placement previews. Cover artwork is an AI-assisted branding visualisation. Samples govern final appearance and performance.

Vacuum & travel collection

FEATURED DESIGN / CSL-VT-029

Vacuum travel backpack

CSL-VT-029 | Custom / OEM branding on request

The source shows a built-in vacuum-compression compartment with before/after packing views. Compression performance, pump compatibility and usable capacity must be confirmed.
