Your sourcing partner in China

CSL IMPEX connects international buyers with dental consumables, instruments and equipment sourced from China. We coordinate product selection, samples, specifications, private-label options and export supply.

Sourcing & procurement

Product searches, supplier comparisons, sample coordination and purchase follow-up.

Custom products & OEM manufacturing

Product logo, colour, label and packaging options, subject to feasibility, approval and minimum order quantities.

Quality control & reporting

Agreed inspection points, production follow-up, packing checks and photo or inspection reports.

Logistics & documentation

Air, land and sea shipment coordination, commercial invoices, packing lists and supporting export documents.

Negotiation & order coordination

Quotation comparisons, commercial negotiation and coordination of production and shipment schedules.

Product directory

01	Restorative & matrix systems	4
02	Isolation & rubber dam	16
03	Burs, polishers & finishing	20
04	Endodontic instruments & posts	64
05	Bur storage & instrument organization	77
06	Needles, posts & restorative materials	96
07	Retractors & disposable supplies	103
08	Handpieces & treatment equipment	124
09	Cleaning, sterilization & diagnostics	143
10	Impression, laboratory & general supplies	161

894 product entries with supplied descriptions, dimensions and packing where available. CSL-DM references identify this detailed edition. Technical pattern and component references in the descriptions support product selection.

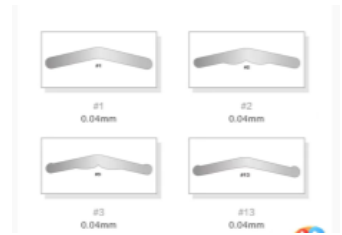

This is a sourcing catalogue, not a price quotation. Historical prices and empty order columns have been removed. Source text in English and Chinese is retained for specification reference. Product photos are kept at their original available resolution.

Tools

OEM branding & ordering information

Make your product range your own.

01 / Choose the product

Quote the CSL reference, size, material, required quantity and destination country. Confirm the exact configuration with a sample or specification sheet.

02 / Approve your branding

Request CSL IMPEX or your own brand on the product, label, pouch, box or outer carton. Logo placement, print method and minimum quantity are confirmed per item.

03 / Confirm the supply details

Approve packing quantity, carton dimensions, gross/net weight, lead time, inspection criteria, documents and agreed delivery terms before placing the order.

04 / Inspect and ship

Arrange pre-shipment checks against the approved sample and packing specification. Air, land and sea logistics can be coordinated.

Product photos show reference samples, including original packaging where visible. OEM branding is an order option; these photos are not approved private-label artwork. Specifications and packing are supplier-provided and must be reconfirmed for the exact order. Request model-specific conformity and destination-market documents; this catalogue is not a certification or clinical-use instruction.
