Product Verification Checklist

- For plumbing items, confirm body material, thread standard, seal material, pressure range, finish and intended water application.
- For drinking-water-contact products, request evidence for the destination requirement; do not assume certification from appearance or material description.
- For LED and electrical items, confirm rated voltage, frequency, wattage, base type, power factor, plug and applicable safety reports.
- Approve master-carton dimensions, barcode, unit weight, artwork and mixed-order loading plan before production.
